APPLE VACATIONS' GROUPS DEPARTMENT recently launched two new webforms on the Traditional Groups site on the [TA Café](#),

The two NEW individual forms are:

1. [Travel Agent Online Traditional Group Quote Request form](#)
2. [Travel Agent Online Traditional Group Modification Request form](#)

Travel Agent Online Traditional Group Quote Request Form

Not 100% "new" but what IS new is how the request is delivered to your dedicated Group Sales Specialist! Requests made online now take half the time of new requests made by any other method!

Travel Agent Online Traditional Group Modification Request Form

This is a truly brand-new method for you to request changes/modifications to an existing traditional group. When you click on the link, a drop down box containing the most frequently requested changes and modifications will appear! If your modification isn't listed, simply chose the "other" option and free text the change you need! Modifications submitted via this webform are actioned faster than modification requests sent any other way!

The benefits of these webforms for YOU...

- Quicker response time over sending a standard email.
- Eliminates/Reduces the need for follow-up as the data is collected ahead of time.
- Requests are routed immediately to the agents best to action the specific modification/change.
